

REMARKS

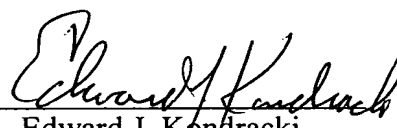

Favorable consideration of the present application is respectfully requested.

The changes made in the specification herein were needed in order to provide standard headings for the various parts of the application, as is required in U.S. practice. An Abstract has been added, in the event that the Abstract from the International Application is not accepted for this U.S. application. The claims were amended in order to remove multiple dependencies and to otherwise present the claims in a more acceptable format for U.S. examination.

Early and favorable action on the merits is earnestly solicited.

Respectfully submitted,

MILES & STOCKBRIDGE P.C.
